

THE BLUE SKY ECOSYSTEM PROJECTS CIC

Community Support & Empowerment Initiative

Community Impact Ecosystem

Our Vision: Community Empowerment & "Even, Loving Care"

The Blue Sky Ecosystem Projects CIC builds transformational community ecosystems to support vulnerable individuals and local charities across Cumbria, while creating a scalable vision for worldwide care. Our community initiatives are dedicated to elevating grassroots charity capacity, strengthening front-line services, and delivering structured, trauma-informed recovery paths so individuals can rebuild their lives with dignity, safety, and self-reliance.

DEVELOPMENT STAGE & SHARED CO-CREATION VISION

We are currently in our active **development stage** and aim to utilize modern, accessible technologies while bringing together experienced individuals and practitioners to help others pave their way forward. We warmly invite community members, partner charities, and donors to co-create this initiative together under our shared vision of compassionate, sustainable support.

CORE OPERATIONAL PILLARS

1. Trauma & Forgiveness Pathways

Providing structured guided paths centered on emotional safety, lived experience, and personal growth—embracing forgiveness of self and others to address internal trauma for true, lasting recovery.

2. Central Community Hub

Developing a welcoming, central space where individuals can access supportive resources, engage in transformative programs, or be signposted to specialist regional networks.

3. Flexible Reinvestment Model

Sustaining our growth through a voluntary "Pay What You Want" model—allowing supporters to direct contributions to us, partner charities, or both to fuel continuous ecosystem expansion.

Why Partner & Support Our Ecosystem

- Flexible Financial Model:** Contributions are voluntary (Pay What You Want) and can be allocated directly to our central hub, partner charities, or split between both.
- Trauma-Informed & Experienced Leadership:** Founded and guided by Level 3 Safeguarding-qualified practitioners dedicated to emotional safety and dignity.
- Central Hub & Signposting:** Establishing a diverse physical and digital space to provide direct care or connect visitors to specialized services.
- Community & Global Vision:** Combining local grassroots action in Cumbria with a scalable framework for global compassionate care.

Our Governance, Safeguarding & Regulatory Commitment

DEVELOPMENT & COMPLIANCE STAGE

At The Blue Sky Ecosystem Projects CIC, we recognise the deep gravity and responsibility of building a transformational community ecosystem. While our lead practitioners hold **Level 3 Safeguarding qualifications**, we remain mindful that we are in an early development phase. We are committed to taking all necessary measures as we grow. This project will **not go live** until it is thoroughly prepared, fully tested, and completely aligned with all legal, regulatory, and GDPR standards under expert professional guidance.

IMMEDIATE CRISIS SIGNPOSTING & SUPPORT NOTICE

The Blue Sky Ecosystem Projects CIC is an ecosystem in development and is **not an emergency crisis response service**. If you, or someone you know, are in immediate danger, feeling overwhelmed, or out of your depth, please reach out directly to emergency and specialist services: In an emergency call **999** | Samaritans: **116 123** | NHS Mental Health Services: **111** | National Domestic Abuse Helpline: **0808 2000 247**. We are deeply committed to ensuring everyone reaches the safest, most appropriate care.
